Subject Index

Achondroplasia
  Craniocervical decompression for cervicomedullary compression in pediatric patients with achondroplasia, 375
  Hydrocephalus in an achondroplastic child treated by venous decompression at the jugular foramen. Case report, 138
Acoustic neurinoma
  Recurrence of acoustic neurilemoma as a malignant spindle-cell neoplasm, D17
  Seventh nerve preservation in acoustic neurinoma removal. Letters, 159
Acquired immunodeficiency syndrome
  Primary central nervous system lymphomas: natural history and response to radiation therapy in 55 patients with acquired immunodeficiency syndrome, 206
  A surgeon's risk of AIDS, 651
  Toxoplasmosis of the conus medullaris in a patient with hemophilia A-associated AIDS. Case report, 951
  Use of CT and MR imaging to distinguish intracranial lesions and to define the need for biopsy in AIDS patients, 720
Adenoma, *see* Pituitary adenoma
Adrenal autograft
  Long-term evaluation of hemiparkinsonian monkeys after adrenal autografting or cavitation alone, 918
Adrenal medulla
  NGF-like trophic support from peripheral nerve for grafted rhesus adrenal chromaffin cells, 418
Adrenocorticotropic hormone
  Anosmia and isolated ACTH deficiency following a road traffic accident. Case report, 453
Air injection
  Forced subarachnoid air for transsphenoidal surgery. Letters, 311
Alpha-2-antiplasmin
  Secretion of α_2-macroglobulin, α_2-antiplasmin, and plasminogen activator inhibitor-1 by glioblastoma multiforme in primary organ culture, 234
Alpha-2-macroglobulin
  Secretion of α_2-macroglobulin, α_2-antiplasmin, and plasminogen activator inhibitor-1 by glioblastoma multiforme in primary organ culture, 234
American Association of Neurological Surgeons
  Neurosurgery in the Decade of the Brain. The 1990 AANS presidential address, 487
  Role of the United States in a changing world. The 1990 Harvey Cushing ovation, 813
American Brain Association
  Neurosurgery in the Decade of the Brain. The 1990 AANS presidential address, 487
Anastomosis, vascular
  Management of giant intracranial ICA aneurysms with combined extracranial-intracranial anastomosis and endovascular occlusion, 57
  Petrous carotid-to-intradural carotid saphenous vein graft for intracavernous giant aneurysm, tumor, and occlusive cerebrovascular disease, 496
  Posterior inferior to posterior inferior cerebellar artery anastomosis combined with trapping for vertebral artery aneurysm. Case report, 462
Anatomical study
  Perforating branches of the basilar bifurcation, 259
  The subtemporal and preauricular infratemporal approach to intradural structures ventral to the brain stem, 345
Anesthesia
  Anesthesia and cerebral coupling. Letters, 644
Aneurysm, *see also* specific types
  Angiographic demonstration of acute phase of intracranial arterial spasm following aneurysm rupture. Case report, 958
  Correlation of transcranial Doppler sonography findings with timing of aneurysm surgery, 72
  Detachable balloon embolization for intracranial aneurysms. Letters, 157
  Effects of blood coagulation Factor XIII on the development of experimental cerebral aneurysms in rats, 242
  The International Cooperative Study on the Timing of Aneurysm Surgery. Part 1: Overall management results, 18
  The International Cooperative Study on the Timing of Aneurysm Surgery. Part 2: Surgical results, 37
  Intraoperative digital subtraction angiography and the surgical treatment of intracranial aneurysms and vascular malformations, 526
  Surgical treatment of unruptured aneurysms of the posterior circulation, 165
  Treatment of cavernous sinus aneurysms. Letters, 161
  Unruptured intracranial aneurysms and arteriovenous malformations: frequency of intracranial hemorrhage and relationship of lesions, 859
Aneurysm, cirsoid
  Elimination of a cirsoid aneurysm of the scalp by direct percutaneous embolization with thrombogenic coils. Case report, 296
Aneurysm clip, *see* Clip
Aneurysm, fungal
  Subarachnoid hemorrhage caused by a fungal aneurysm of the vertebral artery as a complication of intracranial aneurysm clipping. Case report, 962
Aneurysm, giant
  Management of giant intracranial ICA aneurysms with combined extracranial-intracranial anastomosis and endovascular occlusion, 57
  Petrous carotid-to-intradural carotid saphenous vein graft for intracavernous giant aneurysm, tumor, and occlusive cerebrovascular disease, 496
  Retrograde suction decompression of giant paraclinoidal aneurysms. Technical note, 305
Aneurysm, saccular
  Subarachnoid hemorrhage possibly caused by a saccular carotid artery aneurysm within the cavernous sinus. Case report, 301
Angiogenesis
  Inhibition of growth and angiogenesis of human neurofibrosarcoma by heparin and hydrocortisone, 429
Angiography
  Intraoperative digital subtraction angiography and the surgical treatment of intracranial aneurysms and vascular malformations, 526
Angioma
  Cavernous angiomas of the cranial nerves. Report of two cases, 620
  Cerebral venous malformations, 560
  Recurrent intraparenchymal hemorrhages from angiographically occult vascular malformations, 174

Spinal cord arteriovenous malformation with an associated lymphatic anomaly. Case report, 768
Spontaneous resolution of multiple hemangiomas of the brain. Case report, 448
Vascular pressures and cortical blood flow in cavernous angioma of the brain, 555
Angiosarcoma
Cerebral metastasis from angiosarcoma of the heart. Case report, 633
Ankylosing spondylitis
Cauda equina syndrome of long-standing ankylosing spondylitis. Case report and review of the literature, 441
Anosmia
Anosmia and isolated ACTH deficiency following a road traffic accident. Case report, 453
Anterior clinoid
Clinoidal meningiomas, 840
Antibiotic prophylaxis
Antibiotic prophylaxis during prolonged clean neurosurgery. Results of a randomized double-blind study using oxacillin, 383
Arteriovenous fistula
Spontaneous regression of giant arteriovenous fistulae during the perinatal period. Case report, 954
Arteriovenous malformation
Cavernous angiomas of the cranial nerves. Report of two cases, 620
Feeding arteries to arteriovenous malformations. Letters, 477
Functional PET scanning in the assessment of cerebral arteriovenous malformations. Case report, 615
Intraoperative digital subtraction angiography and the surgical treatment of intracranial aneurysms and vascular malformations, 526
The natural history of symptomatic arteriovenous malformations of the brain: a 24-year follow-up assessment, 387
Recurrent intraparenchymal hemorrhages from angiographically occult vascular malformations, 174
Spinal cord arteriovenous malformation with an associated lymphatic anomaly. Case report, 768
Spontaneous regression of giant arteriovenous fistulae during the perinatal period. Case report, 954
Surgical management of hematomas of the brain stem, 181
Unruptured intracranial aneurysms and arteriovenous malformations: frequency of intracranial hemorrhage and relationship of lesions, 859
Arteriovenous oxygen difference
Cerebral venous oxygen content as a measure of brain energy metabolism with increased intracranial pressure and hyperventilation, 927
Artery, *see* specific arteries
Astrocytoma
The role of surgery in the management of supratentorial intermediate and high-grade astrocytomas in adults, 331
Surgical management of exophytic chiasmatic-hypothalamic tumors of childhood, 661
Atlantoaxial dislocation
Occipitocervical fusion for reduction of traumatic periodontoid hypertrophic cicatrix. Case report, 466
Atlanto-occipital joint
Atlanto-occipital joint. Letters, 644
Autoregulation
Relationship between cardiac output and cerebral blood flow in patients with intact and with impaired autoregulation, 368
Transcranial Doppler ultrasound studies of cerebral autoregulation and subarachnoid hemorrhage in the rabbit, 601

Balloon catheterization
Management of giant intracranial ICA aneurysms with combined extracranial-intracranial anastomosis and endovascular occlusion, 57
Balloon embolization
Detachable balloon embolization for intracranial aneurysms. Letters, 157
Intracarotid hydroxyethyl methacrylate solution causing stroke in dogs, 756
Basal ganglion
Syringomyelia extending to basal ganglia. Letter, 645
Basilar artery
Perforating branches of the basilar bifurcation, 259
BCNU
Use of verapamil to enhance the antiproliferative activity of BCNU in human glioma cells: an *in vitro* and *in vivo* study, 248
Biopsy
Implantation metastasis of pineoblastoma after stereotactic biopsy. Case report, 287
Use of CT and MR imaging to distinguish intracranial lesions and to define the need for biopsy in AIDS patients, 720
Whipple's disease presenting with isolated neurological symptoms. Case report, 623
Blood-brain barrier
Blood-brain barrier disruption in brain-tumor therapy. Letters, 475
Brain damage from ^{125}I brachytherapy evaluated by MR imaging, a blood-brain barrier tracer, and light and electron microscopy in a rat model, 585
Cerebrovascular and metabolic effects on the rat brain of focal Nd:YAG laser irradiation, 909
Hyperosmotic blood-brain barrier disruption. Letters, 805

Myxomatous cyst of the brachial plexus. Case report, 782
Brachytherapy, *see* Interstitial brachytherapy
Brain injury, *see also* Head injury
Brain damage from ^{125}I brachytherapy evaluated by MR imaging, a blood-brain barrier tracer, and light and electron microscopy in a rat model, 585
Continuous monitoring of cerebral oxygenation in acute brain injury: injection of mannitol during hyperventilation, 725
Platelet-activating factor and progressive brain damage follow-

ing focal brain injury, 223
Severe traumatic brain injury. Letters, 479
Brain mapping
Correlation of brain mapping and MR imaging. Letters, 474
Brain neoplasm
Antigen related to cell proliferation in malignant gliomas recognized by a human monoclonal antibody, 901
Blood-brain barrier disruption in brain-tumor therapy. Letters, 475
Cavernous angiomas of the cranial nerves. Report of two cases, 620
Cell kinetics of rat 9L brain tumor determined by double labeling with iodo- and bromodeoxyuridine, 254
Correlation of clinical and pathological features in surgically treated craniopharyngiomas, 12
Correlation of *in vitro* bromodeoxyuridine labeling index and DNA aneuploidy with survival or recurrence in brain-tumor patients, 396
Evidence for a local immune activation in cystic brain tumors, 933
Hormonal dependency of cerebral meningiomas. Part 1: Female sex steroid receptors and their significance as specific markers for adjuvant medical therapy, 743
Hormonal dependency of cerebral meningiomas. Part 2: *In vitro* effect of steroids, bromocriptine, and epidermal growth factor on growth of meningiomas, 750
The long-term side effects of radiation therapy for benign brain tumors in adults, 502
Magnetic resonance imaging contrast agents: theory and application to the central nervous system, 820
Monosomy 22 in rhabdoid or atypical tumors of the brain, 710
Motility factor produced by malignant glioma cells: role in tumor invasion, 881
Total removal of craniopharyngiomas. Approaches and long-term results in 144 patients, 3
Use of verapamil to enhance the antiproliferative activity of BCNU in human glioma cells: an *in vitro* and *in vivo* study, 248
Brain stem
The subtemporal and preauricular infratemporal approach to intradural structures ventral to the brain stem, 345
Surgical management of hematomas of the brain stem, 181
Brain water
Changes in the components and content of biological water in the brain of experimental hydrocephalic rabbits, 274
Characterization of periventricular edema in normal-pressure hydrocephalus by measurement of water proton relaxation times, 864
Bromocriptine
Hormonal dependency of cerebral meningiomas. Part 2: *In vitro* effect of steroids, bromocriptine, and epidermal growth factor on growth of meningiomas, 750
Bromodeoxyuridine
Cell kinetics of rat 9L brain tumor determined by double labeling with iodo- and bromodeoxyuridine, 254
Correlation of *in vitro* bromodeoxyuridine labeling index and DNA aneuploidy with survival or recurrence in brain-tumor patients, 396
Metastatic intracranial carcinoid with immunohistochemical observation. Case report, 130
Bypass procedure
Interposition vein grafts: cervical-to-petrous ICA bypass. Letters, 968

Cadaveric dura
FDA panel discussion on cadaver dura. Letter, 310
Carcinoembryonic antigen
Epithelial cyst of the fourth ventricle. Case report, 942
Carcinoid
Metastatic intracranial carcinoid with immunohistochemical observation. Case report, 130
Cardiac output
Relationship between cardiac output and cerebral blood flow in patients with intact and with impaired autoregulation, 368
Carotid endarterectomy
Risk of late stroke and survival following carotid endarterectomy procedures for symptomatic patients, 193
Cauda equina
Cauda equina syndrome of long-standing ankylosing spondylitis. Case report and review of the literature, 441
Giant gangliocytic paraganglioma of the filum terminale. Case report, 459
Paraganglioma of the cauda equina. Report of three cases, 455
Cavernous angioma, *see* Angioma
Cavernous hemangioma, *see* Hemangioma
Cavernous sinus
Clinoidal meningiomas, 840
Subarachnoid hemorrhage possibly caused by a saccular carotid artery aneurysm within the cavernous sinus. Case report, 301
Transsphenoidal approach to infrasellar tumors involving the cavernous sinus, 513
Treatment of cavernous sinus aneurysms. Letters, 161
Zygomatic approach to skull-base lesions, 668
Cavitation
Long-term evaluation of hemiparkinsonian monkeys after adrenal autografting or cavitation alone, 918
Cell kinetics
Cell kinetics of rat 9L brain tumor determined by double labeling with iodo- and bromodeoxyuridine, 254
Cell proliferation
Inhibition of growth of established human glioma cell lines by modulators of the protein kinase-C system, 594
Silver colloid staining technique for analysis of glioma malignancy, 113
Cerebellopontine angle tumor
Recurrence of acoustic neurilemoma as a malignant spindle-cell neoplasm, 946
Cerebral blood flow
Anesthesia and cerebral coupling. Letters, 644
Cerebrovascular and metabolic effects on the rat brain of focal Nd:YAG laser irradiation, 909
Platelet-activating factor and progressive brain damage following focal brain injury, 223
Relationship between cardiac output and cerebral blood flow in patients with intact and with impaired autoregulation, 368
Stable xenon-enhanced CT measurement of cerebral blood flow in reversible focal ischemia in baboons, 266
Transcranial Doppler ultrasound studies of cerebral autoregulation and subarachnoid hemorrhage in the rabbit, 601
Vascular pressures and cortical blood flow in cavernous angioma of the brain, 555
Cerebral blood volume
Impaired capillary perfusion and brain edema following experimental subarachnoid hemorrhage: a morphometric study, 410
Cerebral metabolism
Cerebral venous oxygen content as a measure of brain energy metabolism with increased intracranial pressure and hyperventilation, 927
Cerebrovascular bed
Systems analysis of cerebrovascular pressure transmission: an observational study in head-injured patients, 871
Cerebrovascular reactivity
Transcranial Doppler ultrasound studies of cerebral autoregulation and subarachnoid hemorrhage in the rabbit, 601
Cervical spine
Management of cervical spine fractures. Letters, 478
Microdiscectomy for posterolateral soft cervical discs. Letters, 310
A simple technique of posterior wiring in traumatic instability of mid to lower cervical spine. Technical note, 798

Index

Cervicomedullary junction
  Cruciate paralysis: a clinical and radiographic analysis of injuries to the cervicomedullary junction, 850
Chemotherapy, *see also* specific drugs
  Craniopharyngiomas in children. Long-term effects of conservative surgical procedures combined with radiation therapy, 534
Chiari malformation
  Syringomyelia-Chiari complex: magnetic resonance imaging and clinical evaluation of surgical treatment, 64
Children
  Chronic subdural hematoma in infancy. Clinical analysis of 30 cases in the CT era, 201
  Craniocervical decompression for cervicomedullary compression in pediatric patients with achondroplasia, 375
  Craniopharyngiomas in children. Long-term effects of conservative surgical procedures combined with radiation therapy, 534
  Long-term follow-up review of 31 children with severe closed head trauma, 684
  Management and long-term follow-up review of children with lipomyelomeningocele, 1952–1987, 48
  Monosomy 22 in rhabdoid or atypical tumors of the brain, 710
  Surgical management of exophytic chiasmatic-hypothalamic tumors of childhood, 661
Cholesterol metabolism
  Cholesterol uptake by human glioma cells via receptor-mediated endocytosis of low-density lipoprotein, 760
Chromaffin cells
  NGF-like trophic support from peripheral nerve for grafted rhesus adrenal chromaffin cells, 418
Chromosome
  Clonal origin of pituitary adenomas, 731
  Monosomy 22 in rhabdoid or atypical tumors of the brain, 710
Clip
  A new intracranial Silastic encircling clip for hemostasis. Technical note, 638
Clipping
  Subarachnoid hemorrhage caused by a fungal aneurysm of the vertebral artery as a complication of intracranial aneurysm clipping. Case report, 962
Clivus
  The subtemporal and preauricular infratemporal approach to intradural structures ventral to the brain stem, 345
Coma
  Initial CT findings in 753 patients with severe head injury. A report from the NIH Traumatic Coma Data Bank, 688
  Neurobehavioral outcome 1 year after severe head injury. Experience of the Traumatic Coma Data Bank, 699
  Severe traumatic brain injury. Letters, 479
Computerized tomography
  A comparative study on ventriculographic and computerized tomography-guided determinations of brain targets in functional stereotaxis, 565
  Postoperative CT contrast enhancement following lobectomy for epilepsy, 392
  Stable xenon-enhanced CT measurement of cerebral blood flow in reversible focal ischemia in baboons, 266
Contrast medium
  Magnetic resonance imaging contrast agents: theory and application to the central nervous system, 820
Conus medullaris
  Toxoplasmosis of the conus medullaris in a patient with hemophilia A-associated AIDS. Case report, 951
Cooperative aneurysm study
  The International Cooperative Study on the Timing of Aneurysm Surgery. Part 1: Overall management results, 18
  The International Cooperative Study on the Timing of Aneurysm Surgery. Part 2: Surgical results, 37
Corpus callosum
  Corpus callosal atrophy following closed head injury: detection with magnetic resonance imaging, 77
Craniocervical decompression
  Craniocervical decompression for cervicomedullary compression in pediatric patients with achondroplasia, 375
Craniopharyngioma
  Correlation of clinical and pathological features in surgically treated craniopharyngiomas, 12
  Craniopharyngiomas in children. Long-term effects of conservative surgical procedures combined with radiation therapy, 534
  Total removal of craniopharyngiomas. Approaches and long-term results in 144 patients, 3
Cruciate paralysis
  Cruciate paralysis: a clinical and radiographic analysis of injuries to the cervicomedullary junction, 850
Cushing oration
  Role of the United States in a changing world. The 1990 Harvey Cushing oration, 813
Cyst, *see* specific types
Cyst, arachnoid
  Presentation and management of suprasellar arachnoid cysts. Review of 20 cases, 355
Cyst, colloid
  Ontogenesis of colloid cysts. Letters, 312
Cyst, enterogenous
  Epithelial cyst of the fourth ventricle. Case report, 942
  Intradural epithelial cyst at the craniovertebral junction. Case report, 788
Cyst, epithelial
  Epithelial cyst of the fourth ventricle. Case report, 942
  Intradural epithelial cyst at the craniovertebral junction. Case report, 788
Cyst, myxomatous
  Myxomatous cyst of the brachial plexus. Case report, 782
Cytoarchitecture
  Cytoarchitecture of the smooth muscles and pericytes of rat cerebral blood vessels. A scanning electron microscopic study, 82

Decade of the Brain
  Neurosurgery in the Decade of the Brain. The 1990 AANS presidential address, 487
  The Decade of the Brain: an era of promise for neurosurgery and a call to action, 1
Dementia
  Whipple's disease presenting with isolated neurological symptoms. Case report, 623
Diagnostic imaging, *see* specific studies
Dichloroacetate
  Neurological protection by dichloroacetate depending on the severity of injury in the paraplegic rat, 118
Disc, *see* Intervertebral disc
Discectomy
  Microdiscectomy for posterolateral soft cervical discs. Letters, 310
DNA aneuploidy
  Correlation of *in vitro* bromodeoxyuridine labeling index and DNA aneuploidy with survival or recurrence in brain-tumor patients, 396
Doppler velocimetry
  Impact of vessel distortion on transcranial Doppler velocity measurements: correlation with magnetic resonance imaging, 572
  Transcranial Doppler ultrasound studies of cerebral autoregulation and subarachnoid hemorrhage in the rabbit, 601
Drug delivery
  Constant infusion of morphine for intractable cancer pain using an implanted pump, 405
  Hyperosmotic blood-brain barrier disruption. Letters, 805

Dural sinus
Extra-axial cavernous hemangiomas involving the dural sinuses, 187
Dura mater
Biologically inert synthetic dural substitutes. Appraisal of a medical-grade aliphatic polyurethane and a polysiloxane-carbonate block copolymer, 936
FDA panel discussion on cadaver dura. Letter, 310

Edema
Changes in the components and content of biological water in the brain of experimental hydrocephalic rabbits, 274
Characterization of periventricular edema in normal-pressure hydrocephalus by measurement of water proton relaxation times, 864
Spontaneous resolution of multiple hemangiomas of the brain. Case report, 448
Embolization, *see also* Balloon embolization
Elimination of a cirsoid aneurysm of the scalp by direct percutaneous embolization with thrombogenic coils. Case report, 296
Treatment of spinal metastases from kidney cancer by presurgical embolization and resection, 548
Encephalitis
Propionibacterium encephalitis. Letters, 967
Endarterectomy
Cerebral vasoconstriction as a complication of carotid endarterectomy. Case report, 151
Endocrine dysfunction
Correlation of clinical and pathological features in surgically treated craniopharyngiomas, 12
Epidermal growth factor
Hormonal dependency of cerebral meningiomas. Part 2: *In vitro* effect of steroids, bromocriptine, and epidermal growth factor on growth of meningiomas, 750
Response of malignant glioma cell lines to epidermal growth factor and platelet-derived growth factor in a serum-free medium, 106
Epidural infusion
Constant infusion of morphine for intractable cancer pain using an implanted pump, 405
Epilepsy, *see* Seizure
Extracranial-intracranial bypass
Management of giant intracranial ICA aneurysms with combined extracranial-intracranial anastomosis and endovascular occlusion, 57

Factor XIII
Effects of blood coagulation Factor XIII on the development of experimental cerebral aneurysms in rats, 242
Femoral nerve
Bilateral femoral nerve neuropathy following blunt trauma. Case report, 630
Fiberoptic pressure monitor
Fiberoptic pressure monitors. Letters, 642
Fibrinolysis
CT-guided stereotactic fibrinolysis of spontaneous and hypertensive cerebellar hemorrhage: long-term results, 217
Filum terminale
Giant gangliocytic paraganglioma of the filum terminale. Case report, 459
Foreign body
Effect of bullet removal on subsequent pain in persons with spinal cord injury secondary to gunshot wound, 401

Fourth ventricle
Epithelial cyst of the fourth ventricle. Case report, 942
Fourth ventricular schwannoma. Case report, 777

Gadolinium
Magnetic resonance imaging contrast agents: theory and application to the central nervous system, 820
Ganglion transplantation
Autologous cervical ganglion transplantation in Parkinsonian monkeys. Letters, 474
Glioblastoma
Characteristics and biological role of steroid hormone receptors in neuroepithelial tumors, 736
Response of malignant glioma cell lines to epidermal growth factor and platelet-derived growth factor in a serum-free medium, 106
Secretion of α_2-macroglobulin, α_2-antiplasmin, and plasminogen activator inhibitor-1 by glioblastoma multiforme in primary organ culture, 234
Glioma
Antigen related to cell proliferation in malignant gliomas recognized by a human monoclonal antibody, 901
Antiproliferative effect of trapidil, a platelet-derived growth factor antagonist, on a glioma cell line *in vitro*, 436
Cholesterol uptake by human glioma cells via receptor-mediated endocytosis of low-density lipoprotein, 760
Effect of phorbol esters on the susceptibility of a glioma cell line to lymphokine-activated killer cell activity, 91
Evidence for a local immune activation in cystic brain tumors, 933
Inhibition of growth of established human glioma cell lines by modulators of the protein kinase-C system, 594
Motility factor produced by malignant glioma cells: role in tumor invasion, 881
Response of malignant glioma cell lines to activation and inhibition of protein kinase C-mediated pathways, 98
Silver colloid staining technique for analysis of glioma malignancy, 113
Use of verapamil to enhance the antiproliferative activity of BCNU in human glioma cells: an *in vitro* and *in vivo* study, 248
Glutamate
Massive increases in extracellular potassium and the indiscriminate release of glutamate following concussive brain injury, 889
Glycerol
Percutaneous retrogasserian glycerol injection in the management of trigeminal neuralgia: long-term follow-up results, 212
Grading systems
Indications for surgical treatment of putaminal hemorrhage. Comparative study based on serial CT and time-course analysis, 518
Graft, *see* specific types
Granuloma
Intrasellar mass with hypopituitarism as a manifestation of sarcoidosis. Case report, 283
Growth factor
Antiproliferative effect of trapidil, a platelet-derived growth factor antagonist, on a glioma cell line *in vitro*, 436
Response of malignant glioma cell lines to activation and inhibition of protein kinase C-mediated pathways, 98

Head injury, *see also* Brain injury
Anosmia and isolated ACTH deficiency following a road traffic

accident. Case report, 453
Cerebral venous oxygen content as a measure of brain energy metabolism with increased intracranial pressure and hyperventilation, 927
Corpus callosal atrophy following closed head injury: detection with magnetic resonance imaging, 77
Initial CT findings in 753 patients with severe head injury. A report from the NIH Traumatic Coma Data Bank, 688
Long-term follow-up review of 31 children with severe closed head trauma, 684
Massive increases in extracellular potassium and the indiscriminate release of glutamate following concussive brain injury, 889
Neurobehavioral outcome 1 year after severe head injury. Experience of the Traumatic Coma Data Bank, 699
Precocious puberty following head injury. Case report, 123
Systems analysis of cerebrovascular pressure transmission: an observational study in head-injured patients, 871
Hemangioma
Extra-axial cavernous hemangiomas involving the dural sinuses, 187
Spontaneous resolution of multiple hemangiomas of the brain. Case report, 448
Vascular pressures and cortical blood flow in cavernous angioma of the brain, 555
Hematoma, *see also* specific types
Surgical management of hematomas of the brain stem, 181
Hemodilution
Comparison of crystalloids and colloids for hemodilution in a model of focal cerebral ischemia, 576
Hemorrhage, *see also* specific types
CT-guided stereotactic fibrinolysis of spontaneous and hypertensive cerebellar hemorrhage: long-term results, 217
Recurrent intraparenchymal hemorrhages from angiographically occult vascular malformations, 174
Hemostasis
A new intracranial Silastic encircling clip for hemostasis. Technical note, 638
A new 1.9-μ wavelength laser for neurosurgery, 611
Heparin
Inhibition of growth and angiogenesis of human neurofibrosarcoma by heparin and hydrocortisone, 429
Hydrocephalus
Changes in the components and content of biological water in the brain of experimental hydrocephalic rabbits, 274
Hydrocephalus in an achondroplastic child treated by venous decompression at the jugular foramen. Case report, 138
Hydrocortisone
Inhibition of growth and angiogenesis of human neurofibrosarcoma by heparin and hydrocortisone, 429
Hydroxyethyl methacrylate
Intracarotid hydroxyethyl methacrylate solution causing stroke in dogs, 756
Hypergammaglobulinemia
Meningioma with hypergammaglobulinemia. Case report, 628
Hyperostosis
Cervical myelopathy in diffuse idiopathic skeletal hyperostosis. Case report, 279
Hyperventilation
Cerebral venous oxygen content as a measure of brain energy metabolism with increased intracranial pressure and hyperventilation, 927
Continuous monitoring of cerebral oxygenation in acute brain injury: injection of mannitol during hyperventilation, 725
Hypopituitarism
Intrasellar mass with hypopituitarism as a manifestation of sarcoidosis. Case report, 283
Hypothalamus
Precocious puberty following head injury. Case report, 123
Surgical management of exophytic chiasmatic-hypothalamic tumors of childhood, 661
Immunoglobulin
Evidence for a local immune activation in cystic brain tumors, 933
Meningioma with hypergammaglobulinemia. Case report, 628
Immunohistochemistry
Cell kinetics of rat 9L brain tumor determined by double labeling with iodo- and bromodeoxyuridine, 254
Immunotherapy
Antigen related to cell proliferation in malignant gliomas recognized by a human monoclonal antibody, 901
Implantable pump
Constant infusion of morphine for intractable cancer pain using an implanted pump, 405
Infarction
Comparison of crystalloids and colloids for hemodilution in a model of focal cerebral ischemia, 576
Infection
Antibiotic prophylaxis during prolonged clean neurosurgery. Results of a randomized double-blind study using oxacillin, 383
Instrumentation
A new intracranial Silastic encircling clip for hemostasis. Technical note, 638
Interleukin-2
Effect of phorbol esters on the susceptibility of a glioma cell line to lymphokine-activated killer cell activity, 91
Interstitial brachytherapy
Brain damage from ^{125}I brachytherapy evaluated by MR imaging, a blood-brain barrier tracer, and light and electron microscopy in a rat model, 585
Intervertebral disc
Microdiscectomy for posterolateral soft cervical discs. Letters, 310
MR imaging of lateral disc herniation. Letters, 642
Intima
Effects of blood coagulation Factor XIII on the development of experimental cerebral aneurysms in rats, 242
Intracavernous lesion
Subarachnoid hemorrhage possibly caused by a saccular carotid artery aneurysm within the cavernous sinus. Case report, 301
Intracerebral hematoma
"Spät-apoplexie." Letters, 808
Intracerebral hemorrhage
Indications for surgical treatment of putaminal hemorrhage. Comparative study based on serial CT and time-course analysis, 518
Intracranial pressure
Cerebral venous oxygen content as a measure of brain energy metabolism with increased intracranial pressure and hyperventilation, 927
Fiberoptic pressure monitors. Letters, 642
Systems analysis of cerebrovascular pressure transmission: an observational study in head-injured patients, 871
Iododeoxyuridine
Cell kinetics of rat 9L brain tumor determined by double labeling with iodo- and bromodeoxyuridine, 254
Ischemia
Comparison of crystalloids and colloids for hemodilution in a model of focal cerebral ischemia, 576
Increased CSF neopterin levels in subarachnoid hemorrhage, 69
Neurological protection by dichloroacetate depending on the severity of injury in the paraplegic rat, 118
Laser
Cerebrovascular and metabolic effects on the rat brain of focal Nd:YAG laser irradiation, 909
A new 1.9-μ wavelength laser for neurosurgery, 611

Leptomyelolipoma
Leptomyelolipoma: analysis of 20 cases, 360
Limbic system
Stereotactic investigation of limbic epilepsy using a multimodal image analysis system. Technical note, 792
Lipoma
Leptomyelolipoma: analysis of 20 cases, 360
Management and long-term follow-up review of children with lipomyelomeningocele, 1952–1987, 48
Lipomyelomeningocele
Management and long-term follow-up review of children with lipomyelomeningocele, 1952–1987, 48
Lobectomy
Postoperative CT contrast enhancement following lobectomy for epilepsy, 392
Lymphatic system
Spinal cord arteriovenous malformation with an associated lymphatic anomaly. Case report, 768
Lymphokine-activated killer cell
Effect of phorbol esters on the susceptibility of a glioma cell line to lymphokine-activated killer cell activity, 91
Lymphoma
Primary central nervous system lymphomas: natural history and response to radiation therapy in 55 patients with acquired immunodeficiency syndrome, 206
Use of CT and MR imaging to distinguish intracranial lesions and to define the need for biopsy in AIDS patients, 720

Magnetic resonance imaging
Characterization of periventricular edema in normal-pressure hydrocephalus by measurement of water proton relaxation times, 864
Corpus callosal atrophy following closed head injury: detection with magnetic resonance imaging, 77
Correlation of brain mapping and MR imaging. Letters, 474
Impact of vessel distortion on transcranial Doppler velocity measurements: correlation with magnetic resonance imaging, 572
Magnetic resonance imaging contrast agents: theory and application to the central nervous system, 820
MR imaging of lateral disc herniation. Letters, 642
Magnus, Vilhelm
Vilhelm Magnus — pioneer neurosurgeon, 317
Mannitol
Continuous monitoring of cerebral oxygenation in acute brain injury: injection of mannitol during hyperventilation, 725
Meningioma
Clinoidal meningiomas, 840
Growth rate of incidental meningiomas, 545
Hormonal dependency of cerebral meningiomas. Part 1: Female sex steroid receptors and their significance as specific markers for adjuvant medical therapy, 743
Meningiomas mimicking cerebral schwannoma, 715
Meningioma with hypergammaglobulinemia. Case report, 628
Meningocele
Postlaminectomy ossified extradural pseudocyst. Case report, 785
Metastasis
Cerebral metastasis from angiosarcoma of the heart. Case report, 633
Metastatic intracranial carcinoid with immunohistochemical observation. Case report, 130
Treatment of spinal metastases from kidney cancer by presurgical embolization and resection, 548
Microcirculation
Impaired capillary perfusion and brain edema following experimental subarachnoid hemorrhage: a morphometric study, 410
Motility factor
Motility factor produced by malignant glioma cells: role in tumor invasion, 881
Myelopathy
Cervical myelopathy in diffuse idiopathic skeletal hyperostosis. Case report, 279

Natural history
Cerebral venous malformations, 560
Growth rate of incidental meningiomas, 545
The natural history of symptomatic arteriovenous malformations of the brain: a 24-year follow-up assessment, 387
Neonate
Spontaneous regression of giant arteriovenous fistulae during the perinatal period. Case report, 954
Neopterin
Increased CSF neopterin levels in subarachnoid hemorrhage, 69
Nerve entrapment
An anterior approach for decompression of the suprascapular nerve, 53
Nerve preservation
Seventh nerve preservation in acoustic neurinoma removal. Letters, 159
Neurobehavioral outcome
Neurobehavioral outcome 1 year after severe head injury. Experience of the Traumatic Coma Data Bank, 699
Neuroectoderm
Ontogenesis of colloid cysts. Letters, 312
Neuroepithelial tumor
Characteristics and biological role of steroid hormone receptors in neuroepithelial tumors, 736
Neurofibrosarcoma
Inhibition of growth and angiogenesis of human neurofibrosarcoma by heparin and hydrocortisone, 429
Neuropathy
Bilateral femoral nerve neuropathy following blunt trauma. Case report, 630
Neuroscience
The Decade of the Brain: an era of promise for neurosurgery and a call to action, 1
Neurosurgery
The Decade of the Brain: an era of promise for neurosurgery and a call to action, 1
Neurosurgical history
Vilhelm Magnus — pioneer neurosurgeon, 317
Normal-pressure hydrocephalus
Characterization of periventricular edema in normal-pressure hydrocephalus by measurement of water proton relaxation times, 864

Occult arteriovenous malformation
Recurrent intraparenchymal hemorrhages from angiographically occult vascular malformations, 174
Surgical management of hematomas of the brain stem, 181
Odontoid fracture
Occipitocervical fusion for reduction of traumatic periodontoid hypertrophic cicatrix. Case report, 466
Ommaya reservoir
Hemiparkinsonism as a complication of an Ommaya reservoir. Case report, 774
Operative technique, *see also* Surgical approach
One-stage posterolateral decompression and fusion. Letters, 807
Reconstruction of the temporalis muscle for the pterional craniotomy. Technical note, 636

Index

Retrograde suction decompression of giant paraclinoidal aneurysms. Technical note, 305
Total removal of craniopharyngiomas. Approaches and long-term results in 144 patients, 3
Optic atrophy
Optic atrophy: theoretical neurosurgical aspects. Letter, 642
Optic glioma
Surgical management of exophytic chiasmatic-hypothalamic tumors of childhood, 661
Orbital varix
Orbital varix with a pearly phlebolith. Case report, 291
Ossification
Cervical myelopathy in diffuse idiopathic skeletal hyperostosis. Case report, 279
Postlaminectomy ossified extradural pseudocyst. Case report, 785
Outcome
Craniopharyngiomas in children. Long-term effects of conservative surgical procedures combined with radiation therapy, 534
Long-term follow-up review of 31 children with severe closed head trauma, 684
Neurobehavioral outcome 1 year after severe head injury. Experience of the Traumatic Coma Data Bank, 699
Oxyhemoglobin
Continuous monitoring of cerebral oxygenation in acute brain injury: injection of mannitol during hyperventilation, 725

Pain
Constant infusion of morphine for intractable cancer pain using an implanted pump, 405
Effect of bullet removal on subsequent pain in persons with spinal cord injury secondary to gunshot wound, 401
Papillary tumor
Papillary pineocytoma. Case report, 135
Paraganglioma
Giant gangliocytic paraganglioma of the filum terminale. Case report, 459
Paraganglioma of the cauda equina. Report of three cases, 455
Resection of high-cervical paraganglioma with cervical-to-petrous internal carotid artery saphenous vein bypass. Report of two cases, 141
Parkinson's disease
Autologous cervical ganglion transplantation in Parkinsonian monkeys. Letters, 474
Hemiparkinsonism as a complication of an Ommaya reservoir. Case report, 774
Long-term evaluation of hemiparkinsonian monkeys after adrenal autografting or cavitation alone, 918
NGF-like trophic support from peripheral nerve for grafted rhesus adrenal chromaffin cells, 418
Percutaneous microcompression
Percutaneous microcompression for trigeminal neuralgia. Letters, 804
Perforating branch
Perforating branches of the basilar bifurcation, 259
Pericyte
Cytoarchitecture of the smooth muscles and pericytes of rat cerebral blood vessels. A scanning electron microscopic study, 82
Periodontoid cicatrix
Occipitocervical fusion for reduction of traumatic periodontoid hypertrophic cicatrix. Case report, 466
Phlebolith
Orbital varix with a pearly phlebolith. Case report, 291
Phorbol ester
Response of malignant glioma cell lines to activation and inhibition of protein kinase C-mediated pathways, 98
Pineoblastoma
Implantation metastasis of pineoblastoma after stereotactic biopsy. Case report, 287
Pineocytoma
Papillary pineocytoma. Case report, 135
Pituitary adenoma
Clonal origin of pituitary adenomas, 731
Surgical treatment of thyrotropin-secreting pituitary adenomas, 674
Plasminogen activator inhibitor
Secretion of α_2-macroglobulin, α_2-antiplasmin, and plasminogen activator inhibitor-1 by glioblastoma multiforme in primary organ culture, 234
Platelet-activating factor
Platelet-activating factor and progressive brain damage following focal brain injury, 223
Platelet-derived growth factor
Response of malignant glioma cell lines to epidermal growth factor and platelet-derived growth factor in a serum-free medium, 106
Polyurethane
Biologically inert synthetic dural substitutes. Appraisal of a medical-grade aliphatic polyurethane and a polysiloxane-carbonate block copolymer, 936
Positron emission tomography
Functional PET scanning in the assessment of cerebral arteriovenous malformations. Case report, 615
Posterior fossa
Early postoperative seizures after posterior fossa surgery, 541
Posterior inferior cerebellar aneurysm
Posterior inferior to posterior inferior cerebellar artery anastomosis combined with trapping for vertebral artery aneurysm. Case report, 462
Potassium
Massive increases in extracellular potassium and the indiscriminate release of glutamate following concussive brain injury, 889
Precocious puberty
Precocious puberty following head injury. Case report, 123
Presentation and management of suprasellar arachnoid cysts. Review of 20 cases, 355
Presidential address
Neurosurgery in the Decade of the Brain. The 1990 AANS presidential address, 487
Prophylaxis
Antibiotic prophylaxis during prolonged clean neurosurgery. Results of a randomized double-blind study using oxacillin, 383
Propionibacterium acnes
Propionibacterium encephalitis. Letters, 967
Proteinase inhibitor
Secretion of α_2-macroglobulin, α_2-antiplasmin, and plasminogen activator inhibitor-1 by glioblastoma multiforme in primary organ culture, 234
Protein kinase C
Effect of phorbol esters on the susceptibility of a glioma cell line to lymphokine-activated killer cell activity, 91
Inhibition of growth of established human glioma cell lines by modulators of the protein kinase-C system, 594
Response of malignant glioma cell lines to activation and inhibition of protein kinase C-mediated pathways, 98
Proton relaxation time
Characterization of periventricular edema in normal-pressure hydrocephalus by measurement of water proton relaxation times, 864
Pseudocyst
Postlaminectomy ossified extradural pseudocyst. Case report, 785
Pterional approach
Reconstruction of the temporalis muscle for the pterional craniotomy. Technical note, 636

Putamen
Indications for surgical treatment of putaminal hemorrhage. Comparative study based on serial CT and time-course analysis, 518

Radiation-induced tumor
Craniopharyngiomas in children. Long-term effects of conservative surgical procedures combined with radiation therapy, 534
The long-term side effects of radiation therapy for benign brain tumors in adults, 502
Radiation necrosis
The long-term side effects of radiation therapy for benign brain tumors in adults, 502
Radiocontrast agent
Magnetic resonance imaging contrast agents: theory and application to the central nervous system, 820
Rhabdoid tumor
Monosomy 22 in rhabdoid or atypical tumors of the brain, 710
Rhizotomy
Percutaneous retrogasserian glycerol injection in the management of trigeminal neuralgia: long-term follow-up results, 212

Saphenous vein graft
Petrous carotid-to-intradural carotid saphenous vein graft for intracavernous giant aneurysm, tumor, and occlusive cerebrovascular disease, 496
Resection of high-cervical paraganglioma with cervical-to-petrous internal carotid artery saphenous vein bypass. Report of two cases, 141
Sarcoidosis
Intrasellar mass with hypopituitarism as a manifestation of sarcoidosis. Case report, 283
Scalp
Elimination of a cirsoid aneurysm of the scalp by direct percutaneous embolization with thrombogenic coils. Case report, 296
Schwannoma
Fourth ventricular schwannoma. Case report, 777
Meningiomas mimicking cerebral schwannoma, 715
Recurrence of acoustic neurilemoma as a malignant spindle-cell neoplasm, 946
Seizure
Early postoperative seizures after posterior fossa surgery, 541
Postoperative CT contrast enhancement following lobectomy for epilepsy, 392
Stereotactic investigation of limbic epilepsy using a multimodal image analysis system. Technical note, 792
Silver staining
Silver colloid staining technique for analysis of glioma malignancy, 113
Skull base
Zygomatic approach to skull-base lesions, 668
Smooth muscle
Cytoarchitecture of the smooth muscles and pericytes of rat cerebral blood vessels. A scanning electron microscopic study, 82
Sparganosis
Cerebral sparganosis. Case report, 147
"Spät-apoplexie"
"Spät-apoplexie." Letters, 808
Sphenoid wing
Clinoidal meningiomas, 840

Spinal compression
Craniocervical decompression for cervicomedullary compression in pediatric patients with achondroplasia, 375
Spinal cord injury
Cruciate paralysis: a clinical and radiographic analysis of injuries to the cervicomedullary junction, 850
Effect of bullet removal on subsequent pain in persons with spinal cord injury secondary to gunshot wound, 401
Spinal dysraphism
Management and long-term follow-up review of children with lipomyelomeningocele, 1952–1987, 48
Spinal fracture
Management of cervical spine fractures. Letters, 478
Spinal fusion
One-stage posterolateral decompression and fusion. Letters, 807
Spinal neoplasm
One-stage posterolateral decompression and fusion. Letters, 807
Treatment of spinal metastases from kidney cancer by presurgical embolization and resection, 548
Spinal stabilization
A simple technique of posterior wiring in traumatic instability of mid to lower cervical spine. Technical note, 798
Spirometra
Cerebral sparganosis. Case report, 147
Stereotaxis
A comparative study on ventriculographic and computerized tomography-guided determinations of brain targets in functional stereotaxis, 565
Implantation metastasis of pineoblastoma after stereotactic biopsy. Case report, 287
Stereotactic investigation of limbic epilepsy using a multimodal image analysis system. Technical note, 792
Steroid hormone receptor
Characteristics and biological role of steroid hormone receptors in neuroepithelial tumors, 736
Hormonal dependency of cerebral meningiomas. Part 1: Female sex steroid receptors and their significance as specific markers for adjuvant medical therapy, 743
Steroids
Hormonal dependency of cerebral meningiomas. Part 2: *In vitro* effect of steroids, bromocriptine, and epidermal growth factor on growth of meningiomas, 750
Spontaneous resolution of multiple hemangiomas of the brain. Case report, 448
Subarachnoid hemorrhage caused by a fungal aneurysm of the vertebral artery as a complication of intracranial aneurysm clipping. Case report, 962
Stroke
Risk of late stroke and survival following carotid endarterectomy procedures for symptomatic patients, 193
Subarachnoid hemorrhage
Angiographic demonstration of acute phase of intracranial arterial spasm following aneurysm rupture. Case report, 958
Correlation of transcranial Doppler sonography findings with timing of aneurysm surgery, 72
Impaired capillary perfusion and brain edema following experimental subarachnoid hemorrhage: a morphometric study, 410
Initial CT findings in 753 patients with severe head injury. A report from the NIH Traumatic Coma Data Bank, 688
The International Cooperative Study on the Timing of Aneurysm Surgery. Part 1: Overall management results, 18
The International Cooperative Study on the Timing of Aneurysm Surgery. Part 2: Surgical results, 37
Subarachnoid hemorrhage caused by a fungal aneurysm of the vertebral artery as a complication of intracranial aneurysm clipping. Case report, 962
Subarachnoid hemorrhage possibly caused by a saccular carotid artery aneurysm within the cavernous sinus. Case report, 301
Unruptured intracranial aneurysms and arteriovenous malformations: frequency of intracranial hemorrhage and relationship of lesions, 859

Index

Subdural hematoma
Acute subdural hematoma in infants. Letter, 645
Chronic subdural hematoma in infancy. Clinical analysis of 30 cases in the CT era, 201
Subtemporal approach
Resection of high-cervical paraganglioma with cervical-to-petrous internal carotid artery saphenous vein bypass. Report of two cases, 141
Suction device
Retrograde suction decompression of giant paraclinoidal aneurysms. Technical note, 305
Suprascapular nerve
An anterior approach for decompression of the suprascapular nerve, 53
Supratentorial tumor
The role of surgery in the management of supratentorial intermediate and high-grade astrocytomas in adults, 331
Surgical approach, *see also* Operative technique *and* specific approaches
The subtemporal and preauricular infratemporal approach to intradural structures ventral to the brain stem, 345
Transsphenoidal approach to infrasellar tumors involving the cavernous sinus, 513
Zygomatic approach to skull-base lesions, 668
Synthetic membrane
Biologically inert synthetic dural substitutes. Appraisal of a medical-grade aliphatic polyurethane and a polysiloxane-carbonate block copolymer, 936
Syringomyelia
Syringomyelia-Chiari complex: magnetic resonance imaging and clinical evaluation of surgical treatment, 64
Syringomyelia extending to basal ganglia. Letter, 645

T cell
Increased CSF neopterin levels in subarachnoid hemorrhage, 69
Temporalis muscle
Reconstruction of the temporalis muscle for the pterional craniotomy. Technical note, 636
Tethered spinal cord
Management and long-term follow-up review of children with lipomyelomeningocele, 1952–1987, 48
Thyrotropin
Surgical treatment of thyrotropin-secreting pituitary adenomas, 674
Timing of surgery
Correlation of transcranial Doppler sonography findings with timing of aneurysm surgery, 72
The International Cooperative Study on the Timing of Aneurysm Surgery. Part 1: Overall management results, 18
The International Cooperative Study on the Timing of Aneurysm Surgery. Part 2: Surgical results, 37
Management and long-term follow-up review of children with lipomyelomeningocele, 1952–1987, 48
Tissue graft
FDA panel discussion on cadaver dura. Letter, 310
NGF-like trophic support from peripheral nerve for grafted rhesus adrenal chromaffin cells, 418
Toxoplasmosis
Toxoplasmosis of the conus medullaris in a patient with hemophilia A-associated AIDS. Case report, 951
Use of CT and MR imaging to distinguish intracranial lesions and to define the need for biopsy in AIDS patients, 720
Transient ischemic attack
Risk of late stroke and survival following carotid endarterectomy procedures for symptomatic patients, 193
Transsphenoidal surgery
Forced subarachnoid air for transsphenoidal surgery. Letters, 311
Surgical treatment of thyrotropin-secreting pituitary adenomas, 674
Transsphenoidal approach to infrasellar tumors involving the cavernous sinus, 513
Trapidil
Antiproliferative effect of trapidil, a platelet-derived growth factor antagonist, on a glioma cell line *in vitro*, 436
Trigeminal neuralgia
Percutaneous microcompression for trigeminal neuralgia. Letters, 804
Percutaneous retrogasserian glycerol injection in the management of trigeminal neuralgia: long-term follow-up results, 212
Tumor, *see* specific tumors
Tumor cell growth
Growth rate of incidental meningiomas, 545
Inhibition of growth of established human glioma cell lines by modulators of the protein kinase-C system, 594
Tumor invasion
Motility factor produced by malignant glioma cells: role in tumor invasion, 881
Tumor seeding
Implantation metastasis of pineoblastoma after stereotactic biopsy. Case report, 287
Tumor, ventricular
Fourth ventricular schwannoma. Case report, 777

Ultrasound
Correlation of transcranial Doppler sonography findings with timing of aneurysm surgery, 72
Urokinase
CT-guided stereotactic fibrinolysis of spontaneous and hypertensive cerebellar hemorrhage: long-term results, 217

Varix
Orbital varix with a pearly phlebolith. Case report, 291
Vascular malformation, *see* Arteriovenous malformation
Vasoconstriction
Cerebral vasoconstriction as a complication of carotid endarterectomy. Case report, 151
Vasospasm
Angiographic demonstration of acute phase of intracranial arterial spasm following aneurysm rupture. Case report, 958
Correlation of transcranial Doppler sonography findings with timing of aneurysm surgery, 72
Vein graft
Interposition vein grafts: cervical-to-petrous ICA bypass. Letters, 968
Petrous carotid-to-intradural carotid saphenous vein graft for intracavernous giant aneurysm, tumor, and occlusive cerebrovascular disease, 496
Venous malformation, *see also* Arteriovenous malformation
Cerebral venous malformations, 560
Ventriculocystostomy
Presentation and management of suprasellar arachnoid cysts. Review of 20 cases, 355
Ventriculography
A comparative study on ventriculographic and computerized tomography-guided determinations of brain targets in functional stereotaxis, 565
Verapamil
Use of verapamil to enhance the antiproliferative activity of

BCNU in human glioma cells: an *in vitro* and *in vivo* study, 248
Vertebrobasilar aneurysm
Surgical treatment of unruptured aneurysms of the posterior circulation, 165
Vision
Correlation of clinical and pathological features in surgically treated craniopharyngiomas, 12
Total removal of craniopharyngiomas. Approaches and long-term results in 144 patients, 3

Waveform analysis
Systems analysis of cerebrovascular pressure transmission: an observational study in head-injured patients, 871
Whipple's disease
Whipple's disease presenting with isolated neurological symptoms. Case report, 623
Wound
Antibiotic prophylaxis during prolonged clean neurosurgery. Results of a randomized double-blind study using oxacillin, 383

Xenon
Stable xenon-enhanced CT measurement of cerebral blood flow in reversible focal ischemia in baboons, 266

Zygomatic approach
Zygomatic approach to skull-base lesions, 668
